Item	Item Label	Change	Analysis Impact
RACEAS HHRACEAS	Race of person (Asian group) Race of householder (Asian group)	RACEAS has been corrected. High (only for users of these variables)

Changes Between 2015 AHS PUFs 1.3 and 2.0

Changes Between 2015 AHS PUFs 2.1 and 2.2			
Item	Item Label	Change	Analysis Impact
BATHROOMS	Number of bathrooms in unit	Previously some cases that reported having no bathroom were incorrectly categorized as 1 bathroom units. This correction caused a significant shift in those reporting no bathrooms, but not for other categories. Three other variables (ADEQUACY, BATHEXCLU, and NOTOIL) were adjusted as a result of this correction.	High (only for users of no bathrooms estimates)
ADEQUACY	Type of housing adequacy		
BATHEXCLU	Flag indicating the unit's bathroom facilities are for the exclusive use of the household		
NOTOIL	Flag indicating if unit had any toilet breakdowns in last 3 months

RODENT	Number of times there was signs of rodents in last 12 months	reported signs of a roach/rodent, but didn't report how many times. The number of cases impacted is minimal.	
ADEQUACY	Type of housing adequacy		
TOTHCAMT	Monthly total housing costs	TOTHCAMT has been adjusted. Previously some imputed housing costs were not included. This impacted 2.4% of cases eligible for TOTHCAMT.	Moderate
UNITSIZE	Unit size (square feet)	UNITSIZE was corrected for 227 (.2%) housing units where the variables had been incorrectly edited.	Minimal
MVG1TYPE, MVG2TYPE, MVG3TYPE	Type of structure of former home	These variables have been corrected, removing an assumption that movers moving from owner occupied housing units were single family. This impacted only records where the structure type was not reported.	Minimal
ELECAMT GASAMT OILAMT OTHERAMT TRASHAMT WATERAMT UTILAMT	Monthly electric amount Monthly gas amount Monthly oil amount Monthly amount for other fuels Monthly trash amount Monthly water amount Monthly total utility amount	Previously these utility variables were incorrectly classified as not applicable (and the other way around) for some vacant and URE units. This fix only impacts units that are not regularly occupied.	Moderate (High impact on vacant utility billing status, no impact on utility costs)
JFINROOMS	Number of other finished rooms in unit	JFINROOMS is now populated correctly; it previously had no values. Note that the large number of 1 values are due to edits that set room counts to 0 when a respondent answered "no" to a screener question.	Minimal
